Our first action was the identification, registration of needs and selection of the most vulnerable families in the 6 neighbourhoods in which we operate, in partnership with early childhood education centres, schools, community health agents, social assistance services and churches, totalling 6,194 direct participants.

In addition to the financial and material resources raised through partnerships and campaigns, which totalled approximately R$1,630,391.39, many people donated their best to support families: their time, knowledge, listening and affection.

We are concerned with balancing the distribution of healthy, organic and nutritious foods, among other products, that take into consideration children and the sharing of affection and warmth through food, thus further contributing to food security.

One strategy to take the care of social isolation requirements was to encourage the circulation of resources in communities. We checked the availability of stock, distribution and sale of products, without increasing prices, with local businesses.

We distributed COVID-19 prevention kits to the community. Altogether, 2,800 bottles of spray and gel alcohol, 7,440 diaper packs for children and 300 acetate masks were delivered.

We distributed 2,080 bottles of spray and gel alcohol, 7,440 diaper packs for children and 300 acetate masks were delivered.

22 voluntary seamstresses mobilised to produce handmade masks and fabrics. All the masks distributed were sanitized, packaged and accompanied by guidance on use.

We occupied social networks with reading mediations and literary indications, in addition to videos and cards talking about the pandemic, access to emergency assistance, self-care tips, prevention, games, recipes and toy making.

The arts have played a fundamental role in nurturing and welcoming people in the period of isolation. Believing in this power, we distribute new and sanitized books to the Parelheiros community. 5,000 new books delivered.

The Voice of Parelheiros (Vozes Daqui de Parelheiros) Community Communication Agency – a collaborative action between IBEAC, CPCD, community and partners – produced podcasts and digital newspaper.

The team members of the projects developed by IBEAC and CPCD in the territory of Parelheiros were involved in the actions of the 4 Ps. 74 people directly involved.

The Voice of Parelheiros (Vozes Daqui de Parelheiros) Community Communication Agency – a collaborative action between IBEAC, CPCD, community and partners – produced podcasts and digital newspaper.

20 organic farmers became involved in the production of food for the baskets distributed to the community. The 4 community gardens were created and five families continued to cultivate gardens on their farms with a focus on food security.
